Our Inspiration Founder Massage

Inspiration can come from anywhere

Sometimes dreams saddle our goals

I have also seen a dream that there must be a school in which child's from every class and from economically weaker section come to take education and build their future and to make my dream come true I have started my efforts to establish a school like this and finally my dream come true in year 2005

Sahaj public school have been started to achieve their goal to provide good education to all

I pray to God to bless school and be kind always .

From the desk of Manager

Dear students, parents staff members and well wishers. It is my honour and privilege to greet you with warm prayerful wishes that you be showered with abundant blessings from the god. Your attitude is either the lock on or key to your door of success. Each of us sooner or later going through the moment or a situation when it seems that we are on the wrong road and life is moving in the wrong direction. But this is also true that some things are within our control and what distrubs us are not that event or situation but our attitude towards them. Dear all I wish you the blessings of a positive attitude and this is what we also try to build in our students.

We at Sahaj public school strive to provide a platform where a child is holisticaly educated physical, mental, social, emotional and spiritual growth. We aim that our students became a resource for tomorrow. I am confident that at Sahaj Public School everyone well understand the true meaning of life, live life to its fullest with the almighty as the guide and reach the heights of glory. May Prabhu Ram continue to protect and bless our School.

Principal Massage

Education is a shared commitment between dedicated teachers, motivated students and parents with high expectations Today, the role of a school is not only to pursue academic excellence but also to empower its students to be lifelong learners, thinkers, and productive members of an ever-changing global society. More than a fifteen years back we pledged to transform education.

At SAHAJ PUBLIC SCHOOL we provide an atmosphere to our students for multifaceted development, where children are encouraged to channelize their potential in the pursuit of excellence. This can only be possible in a student-centric environment. The talents, skills, and abilities of each student need to be identified, nurtured, and encouraged so that he / she is able to reach greater heights. Students need to be provided with a platform to think, express, and exhibit their skills. It is necessary to empower them to negotiate several issues that confront them, with the teacher being a facilitator.

The school is striving hard to make the best possible efforts to inculcate strong values combining with academics and extra-curricular activities in the children. Converting every individual into a self-reliant and independent citizen, the school provides an amalgam of scholastic and co-scholastic activities.

While academic excellence is our major thrust, the school is also devoted to prepare the students for life, groom them to face the challenges of tomorrow, and encourage them to be socially relevant. We constantly endeavour to always live up to this ideology and inculcate this into everything we do, with the aim that we will be able to ensure that the children grow to their full potential, while constantly being groomed to pass out as men and women competent to bear responsibility in all walks of life.

The parents are the most strengthening power in moulding the future of children. Their consistent support empowers us to do more and more. I pay my gratitude to them for their faith in us.

I am confident enough that our students will make themselves stronger day by day.
